

Nordic POP workshop on amorphous drug delivery (basics)

Copenhagen, 18. June 2019

Location: Benzon auditorium

Program:

9:30-9:50 *Registration and Coffee*

9:50-10:00 Korbinian Löbmann
Opening of workshop

Morning Session: Basics on amorphous materials

10:00-11:00 Thomas Rades, University of Copenhagen ()
Fundamentals of amorphous materials

11:00-11:30 Eric Kissi, University of Oslo
Relaxation Phenomena in amorphous materials

11:30-12:15 Clare Strachan, Helsinki University
Overview on analytical techniques to probe amorphous materials

12:15-13:15 *LUNCH break*

Afternoon Sessions: Amorphous drug delivery systems

13:15-14:00 Matthias Manne Knopp, University of Copenhagen
Polymeric amorphous solid dispersions

14:00-14:30 Jessica Rosenholm, Åbo Akademi
Mesoporous silica as carrier for amorphous drugs

14:30-15:00 *Coffee break*

15:00-15:30 Riikka Laitinen, University of Eastern Finland
Co-amorphous drug delivery systems

15:30-16:00 Holger Grohgan, University of Copenhagen
Solid state of freeze dried systems

16:00-16:30 Ingunn Tho, University of Oslo
3D printing of amorphous dosage forms

16:30-16:45 Korbinian Löbmann
Closing of workshop

18:00 Dinner, TBD
